

KYIV 50

Universal vehicle AC Evaporator

- **Compact Design** - Despite its powerful capabilities, the Kyiv 50 features a compact and space-saving design, making it ideal for installation in military vehicles
- **Robust Construction** - Built to withstand the toughest conditions, the Kyiv 50 is constructed using high-quality parts sourced from leading global suppliers, ensuring reliability and durability
- **Field Tested** - The Kyiv 50 has undergone rigorous field testing under the harshest circumstances to guarantee optimal performance and reliability in real-world military environments
- **Easy Installation** - With its lightweight design and easy-fix connectors, the Kyiv 50 is quick and simple to install, minimizing downtime and maximizing operational readiness
- **Customizable Solutions** - Thermo Project Ukraine offers customizable solutions to meet the unique needs of military customers, ranging from basic units to complete packages including installation material and air ducting

The new Kyiv 50 universal evaporator is specifically engineered to meet the demanding requirements of military vehicle air conditioning applications. The Kyiv 50 sets a new benchmark for performance, reliability and versatility in military vehicle climate control.

With a cooling capacity of 5 kW and optional heating capabilities, the Kyiv 50 ensures optimal comfort for personnel operating in diverse environmental conditions. Designed to seamlessly integrate as an extension of the main vehicle AC unit, including on Ford F-series platforms, the Kyiv 50 delivers enhanced climate control without compromising space or efficiency.

KYIV 50

Universal vehicle AC Evaporator

Technical specifications

Nominal cooling power	kW	5
Heating power (option)	kW	5
Working voltage	V	12 or 24
Working temperature	°C	from + 10 to + 40
Evaporator's control		manual / semi-automatic
Overall dimensions	L x W x H, mm	385 x 340 x 175
Weight	kg	8
